

- **Questions**

Let the following oscilloscope screen shot be given of a UART frame in 8/O/2 format. Label all relevant bits. Which character has been received? Was the transmission error-free? What is the bit rate?

• Questions

Let the following oscilloscope screen shot be given of a UART frame in 8/O/2 format. Label all relevant bits. Which character has been received? Was the transmission error-free? **Bit rate 5kps**

Bits:

0 (start bit)

1101 0010 (data)

0 (parity **broken**)

11 (stop bits)

Character:

(LSB first!)

0100 1011

0x4B ('K')
